re: PARTNERS IN EDUCATION GRANT

Dear Rotary members;

I want to thank you so much for your support of my project MATH KITS FOR HOME ACTIVITIES which was a very successful part of my kindergarten program this year. Because of your generosity, I was able to purchase materials to create interactive math activities and games for parents and siblings to play with their children at home. The kits were kept at home for one week and then returned to school. The games included skills which needed to be developed in KG such as counting, board games with a spinner, numeral recognition, four square formatting, shape and color sorting, etc.

These kits gave families ways to play games and have fun together and yet help their children develop the beginning math skills needed for kindergarten work. I think they enjoyed these activities!

Thank you so much for helping me with this project through your generous contribution to Partners In Education!

Sincerely,

Eslee Kessler
